IWS Install Tool is available for the devices which support the two functions below.

- IWS version 1.2 or later
- OpenAPI version 3.7 or later

* The Web Browser Activation Setting of the Batch Settings added in Ver.1.3.2 is available from the devices which support OpenAPI version 4.8 or later.

* IWS applications of Login Detection type supported in Ver.1.4.2 can be installed into the devices which support either OpenAPI version 5.1 with 29 in ExtraID of MDF or OpenAPI version 5.2 or later.

* For the functions above and the firmware version or upgrades of your devices, contact your service center or dealer.

Limitations

- x86/x64 installer is available and user needs to use the appropriate installer for his/her environment.

Known Issues

[1] The operatin of the Proxy Settings of the Batch Settings fails.

*** Conditions**

- The firmware function version of the target device:
IT5_4.2, IT5_4.2c, or later versions of IT5.
- Device states: The Web browser not used.
Administrator Settings > Network Settings > Web Browser Setting >
Web Browser Usage Setting = OFF(Not Use)

*** Solutions**

- Retry the operatin of the Proxy Settings after confirming that the Web browser can be opened on the device screen.
